Transition Planning

presented by

Cindy Rackow

RAMP Youth Education Advocate

For students in special education, transition is the movement from school into post-school activities including employment, post-secondary education and independent living. In order for students to have a successful transition, it is imperative they receive supports and education beginning at age 14 1/2.

The information presented will include:

- transition planning process
- resources to include in planning
- responsibilities of parents, students and the school

**This presentation is open to parents
of children with disabilities.**

There is no charge.

Please RSVP to:
